

Cyrua Hawkins

Age: 26

Education: Trade

Hometown: Tallahassee, FL

Family: None

Occupation: Alarm Installer

“Ask the right question, to the right person”

Goals

- Learn how to code
- Improve HTML
- Complete first project in CS bootcamp
- Land a job in software

Frustrations

- Bootcamp is fast-paced
- Few hours to study or practice due to work
- Unavailable during TA office hours

Cyrua Hawkins, is enrolled in a fast paced expensive bootcamp. She elected for the evening classes because of her work schedule. She has been exhausted by the pacing because she has little time to work on projects and review the basics. She needs a community that can help her with questions and is accessible during more flexible hours than the Bootcamp offers. She had a great experience with an online sewing group and is hoping to repeat that success again.
